

Anatolii Sydorenko

FrontEnd Developer

Introducing

Software developer who is enthusiastic about tackling challenging projects and tasks. Able to solve problems independently. Wide range of technologies (JavaScript, TypeScript, React, Redux), styling (CSS3, SASS/LESS, BEM), back-end development (Node.js, PHP, MySQL, MongoDB), markup (HTML5, Markdown), and UI/UX design (user experience, accessibility, inclusive design). Version control (Git, GitHub).

Hands-on experience with Agile methodologies such as Scrum and Kanban. Well-versed with tools such as Adobe Photoshop, Pixelmator Pro, and Figma. Proficient in package management (npm, Yarn).

During academic pursuits, I held the position of team leader.

Highly motivated and accomplished software developer with a diverse skill set and a proven track record of success. Always on the lookout for new and exciting opportunities to learn and grow.

Hard skills
